For shops, supermarkets and wholesalers

# Your whole store, in one app.

Billing, stock, udhar, purchases and reports, together on your phone or tablet. Simple enough for anyone at your counter to use.

**Bill in seconds**
Correct GST on every bill.

**Stock that updates itself**
Know what is low before it finishes.

**No udhar forgotten**
Every customer's balance, always clear.

**Profit every night**
Real numbers, not a guess.

Works in **English** · **हिंदी** · **ગુજરાતી**
No computer needed.

THE IDEA

# One app that does the daily work of your store.

Today the bill book, stock register, udhar diary and calculator are four separate things. Whoply joins them: you make the bill, and Whoply does the rest.

**You make one bill**

Scan or tap the items. Take the payment.

- **Stock goes down** · by itself
- **GST is calculated** · right rate, right total
- **Udhar is written** · on the customer's name
- **Profit is counted** · today and this month
- **Reports are ready** · for you and your CA

## Paper today. Whoply tomorrow.

| | ON PAPER | WITH WHOPLY |
|---|---|---|
| **Billing** | Written by hand. A wrong rate or total becomes an argument. | A correct GST bill in seconds. Print it or send it on WhatsApp. |
| **Stock** | You learn it is finished when a customer asks for it. | A low-stock alert, and how much to order. |
| **Udhar** | A name in a diary. Easy to forget. | Every customer's balance, and a list each morning of who to remind. |
| **Profit** | A guess until the month ends. | Real profit, every night. |
| **Staff** | Everyone uses the same book and sees everything. | Each person has a login and sees only their own work. |

BILLING

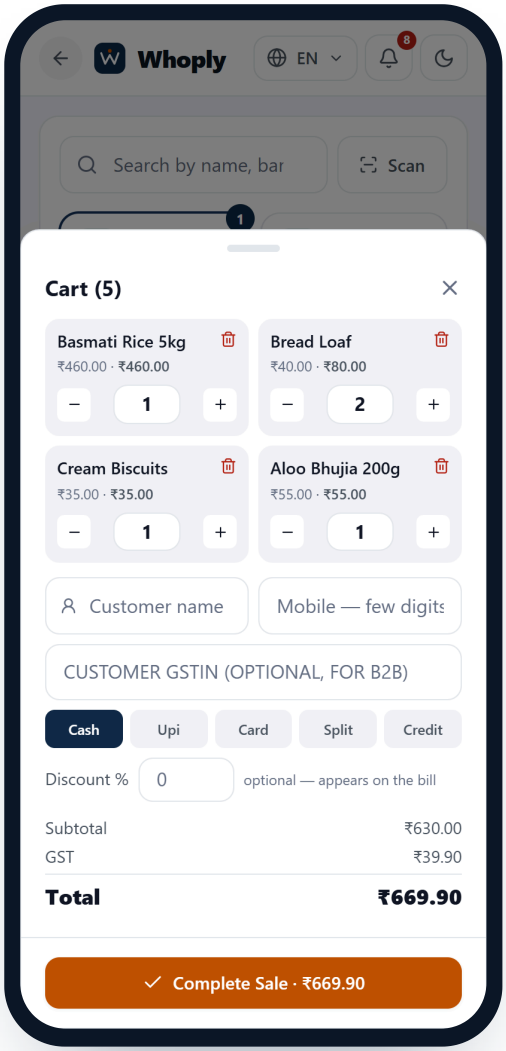

# A correct GST bill, in seconds.

The counter moves faster, and every bill is right.

1. **Scan or tap the item**
   Use a barcode scanner, the phone camera, or search by name.

2. **Choose how the customer pays**
   Cash, UPI, card, a mix of them, or udhar.

3. **Complete the sale**
   Print the bill or send it on WhatsApp. Stock and accounts update by themselves.

Real screen from the app, with demo data: a bill with five items.

## Works with your counter

**Barcode scanner**
A USB scanner, or the phone camera.

**Bill printer**
58 mm or 80 mm roll, or a full A4 GST invoice.

**UPI QR**
Your QR with the bill amount already filled in.

**WhatsApp bill**
Send the bill to the customer's WhatsApp.

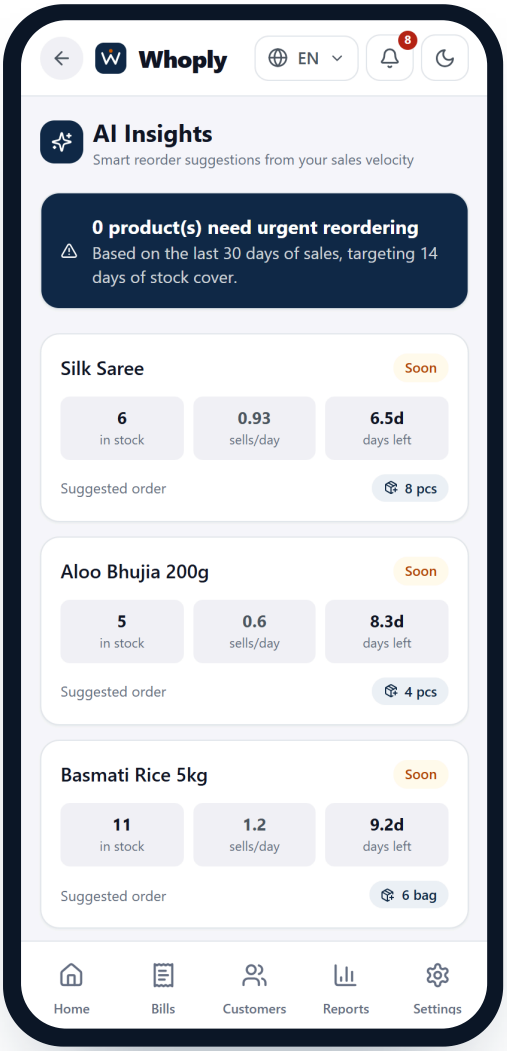

## Also in billing

- Discount on the bill
- Returns and credit notes
- Estimate today, bill tomorrow
- GST bill for business customers
- Sell by piece, kg, box or bag

STOCK AND PURCHASES

# Always know what is on your shelf.

No more counting by hand, and no more empty shelves.

Real screen, demo data: stock left, sale per day, days left, and how much to order.

### Stock updates by itself

Every bill takes stock out. Every purchase puts stock in.

### Low-stock alerts

You know an item is running low before the shelf is empty.

### What to order, and how much

Worked out from how fast each item sold in the last 30 days.

### Suppliers and purchases

Purchase orders, goods received, and what you still owe each supplier.

### Damage and wastage

Correct the stock for damaged items, so your numbers stay true.

### Items in categories

Grocery, clothes, toys, steel. Find any item by name or barcode.

WHAT IT MEANS FOR YOU

**Less money stuck in slow items, and no sale lost to an empty shelf.**

UDHAR AND CUSTOMERS

# No udhar is ever forgotten.

One forgotten udhar is money lost. Whoply remembers every rupee.

### A ledger for every customer

Every credit bill and every payment, in one place.

### A credit limit you set

Whoply warns you when a customer goes over the limit.

### A list every morning

Who owes what, oldest first, ready at 10 AM.

### Remind on WhatsApp

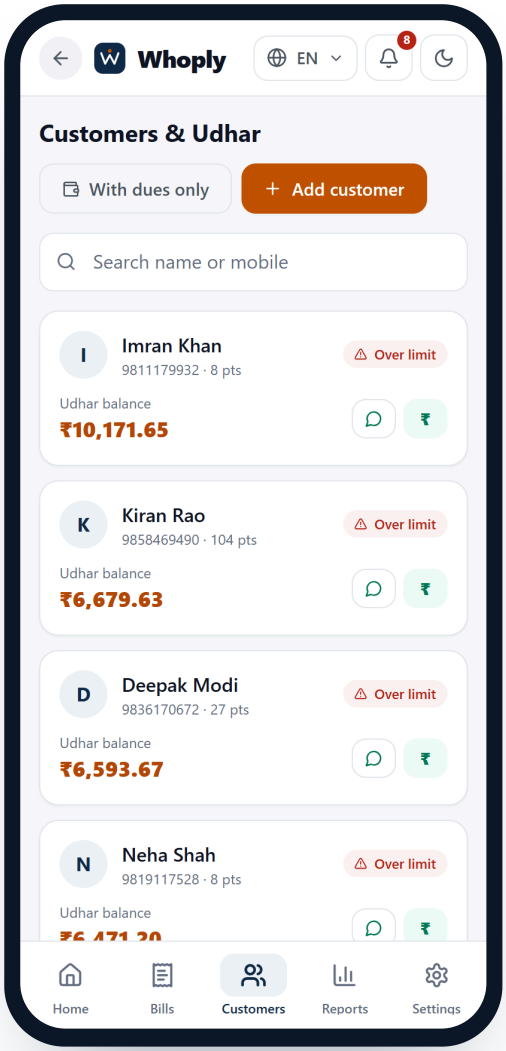

One tap opens WhatsApp with the reminder already written.

### Collect in one tap

Record the payment and the balance updates at once.

### Loyalty points

Customers earn 1 point for every ₹100 they spend.

Real screen, demo data: each customer's udhar balance and points.

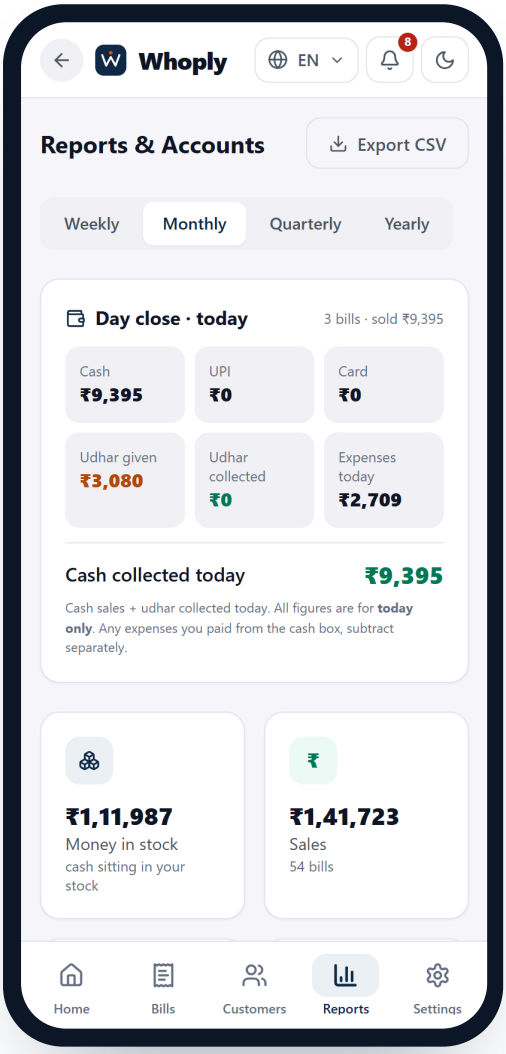

WHAT IT MEANS FOR YOU

**Money that used to be forgotten comes back to you.**

PROFIT, REPORTS AND GST

# Know your profit before you close the shutter.

Every number you used to work out by hand is already there.

Real screen, demo data: today's day close and the month's numbers.

### Day close in one tap

Cash, UPI, card, udhar given, udhar collected and expenses.

### Real profit, every day

Not a guess at the end of the month.

### Best and slow sellers

Keep more of what sells. Stop buying what does not.

### Money in your stock

See how much cash is sitting on your shelves.

### Expenses

Rent, salaries and bills, so the profit you see is the true one.

### GST reports for your CA

GSTR-1 and GSTR-3B reports as files your CA opens in Excel.

WHAT IT MEANS FOR YOU

**You decide with real numbers, not from memory.**

STAFF AND CONTROL

# Your cashier bills. Your cashier never sees your profit.

Each person signs in with their own mobile number and sees only their own work.

### Owner
Sees everything. Only the owner adds staff logins.

### Manager
Runs the store day to day. Cannot add staff or change store details.

### Cashier
Billing, bills, returns, customers, udhar and today's cash.

### Accountant
Reports, GST and accounts. View only.

## Whoply works while you sleep

Three things arrive on your phone without you asking.

**9 PM**
EVERY NIGHT
Your day's summary: sales, profit, dues and low stock.

**10 AM**
EVERY MORNING
Today's udhar list: who owes what, oldest first.

**9 AM**
EVERY MONDAY
What you owe your suppliers this week.

### Are you a wholesaler or distributor?

Whoply has a separate wholesale side: dealer-wise price lists, bulk orders and dispatch, a sales team with collections, and each dealer's outstanding with a credit limit. Tell us, and we set up your account that way.

GETTING STARTED

# Three steps to your first bill.

1

### We open your store account

You get your own login on your mobile number.

2

### Your items go in

Name, price, GST rate and stock. Scan the barcode in place of typing it.

3

### You start billing

Proper GST bills from your very first sale.

## Good to know

### Do I need a computer?

No. An Android phone or tablet is enough. Whoply installs from the browser and opens like any other app.

### Which languages does it work in?

English, हिंदी and ગુજરાતી. Each person can pick their own language.

### Does it need internet?

Yes. Billing needs an internet connection today.

### Can my staff use it?

Yes. Each one gets a separate login, so nobody needs your password.

### Is my data safe?

Your data is backed up every day, and you can download your bills at any time.

### What if I need help?

There is a Help and Support chat inside the app, and we help you with the setup.

## Stop running your store on paper.

Ask us for a demo on your own phone. You will see your own items on your own bill in a few minutes.
